This vehicle history report is based on information available to CARFAX Canada as of August 31, 2023 (once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. **There may be additional information about this vehicle that has not been reported to CARFAX Canada.** When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

Vehicle History Report + Lien Check

Lien Check

No lien records found in Manitoba.

How We Check for Liens

CARFAX Canada uses the VIN to search government records in each Canadian province and territory (excluding Nunavut Territories) where the vehicle is currently registered, as well as where it has historically been registered. We do not check for liens on title in any U.S. state.

If a VIN has no registration records in Canada, we cannot check for liens. We cannot guarantee lien checks for boats, recreational vehicles or heavy-duty equipment.

Purchasers should always get written confirmation from vendors that there is no lien on the vehicle.

CARFAX Canada Canadian Lien Guarantee

If for some reason our lien check fails to accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARFAX Canada will reimburse the party that purchased the report and relied on it to their detriment to a maximum amount of (1) the value of the car (2) the value of the lien (3) Five Thousand Dollars Canadian (\$5,000.00), whichever is lower.

Open Recalls

Recall #: N212328780 | Front Passenger Airbag Inflator - Priority Group 8 Recall Date: 2021 Feb 05

Recall Description

TK Holdings Inc. ("Takata") has decided that a defect, which may affect motor vehicle safety, exists in the passenger-side frontal airbag inflators installed as original equipment in certain 2007-2010 model year Cadillac Escalade, Escalade ESV, and Escalade EXT vehicles; certain Chevrolet Avalanche, Silverado 1500, Silverado 2500, Silverado 3500, and Tahoe vehicles; and certain GMC Sierra 1500, Sierra 2500/3500, Yukon, and Yukon XL vehicles. The defect is that the propellant in these inflators may degrade after long-term exposure to high humidity and temperature cycling, which could cause the inflator to rupture during a deployment.

Remedy

Dealers will replace the passenger-side frontal airbag inflator.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit GM's website.

Recall #: N090270 | SDM RETAINING MOISTURE Recall Date: 2009 Oct 19

Recall Description

General Motors has decided that a defect, which may affect vehicle safety, exists in certain 2007-2009 model year Chevrolet Silverado and GMC Sierra vehicles. Some of these vehicles may have a condition where the sensing and diagnostic module (SDM), located beneath the driver's seat, may corrode due to a significant amount of moisture or water containing road salt or other contaminants entering the vehicle. The SDM is located under the driver's seat underneath the acoustical padding.

Remedy

Dealers are to remove the acoustical pad above

the SDM, and replace the SDM, if necessary.

This recall was open as of the date/time that it was initiated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit GM's website.

initiated. For more information, or to find out if the recall has been closed,

Stolen Vehicle Check

This vehicle is not actively declared stolen.
